Ranger · Cold Call Pitch

Uresë · US: AI QA software (Full-Stack Engineer dhe QA reviewers) · Takimi me Travis Bennett

Çka bëjnë	Startup AI në San Francisco (Presidio), ranger.net. AI e tyre shkruan dhe ekzekuton teste për softuerin e klientëve, dhe QA reviewers njerëz i kontrollojnë rezultatet para se t'i shohë klienti. Rreth 22 punonjës, shumica inxhinierë.
Pronarët	VC. $8.9M gjithsej: pre-seed $2.4M (XYZ Venture Capital, nëntor 2023) dhe seed $6.5M (General Catalyst, dhjetor 2024). Asnjë raund më i ri, ndaj kostoja për çdo punësim ka rëndësi.
Çka po ndodh	Ekipi është më i vogël se një vit më parë, por ende punësojnë. Full-Stack Engineer në Denver është i hapur që nga shtatori 2025 (mbi një vit).
Roli që shesim	Full-Stack Engineer dhe QA reviewers (kontrollojnë testet që i shkruan AI).
Problemi i tyre	Një vend inxhinierie që s'mbushet prej mbi një viti me çmimet e SF dhe Denver. Kur rriten klientët, u duhen më shumë QA reviewers.
Avantazhi ynë	Josh ka punësuar 2 QA Engineers jashtë SHBA përmes Pearl Talent dhe ka thënë publikisht që biznesi u rrit 6 herë. E njeh modelin. Ndryshimi ynë: ai e zgjedh secilin, punojnë vetëm për Ranger, në orarin e tyre, dhe ne mbetemi pas punësimit (rritje rroge, mbajtje, zëvendësim falas).
Çmimi	Asnjë shifër dollari. I vetmi rresht i lejuar (Travis, 1 nëntor): "about a third of what a Denver hire costs". Pjesën tjetër e tregon Travis në takim.
Case study	Wondr Health është për SDR, jo për inxhinierë. Këtu prova është përvoja e vetë Josh-it me Pearl. Mos shpik tjetër.
Landmine	Mos përmend që ekipi u zvogëlua apo shkurtime. Mos fol keq për Pearl Talent. Mos thuaj që zëvendësojmë AI-në e tyre: ne punësojmë njerëzit rreth saj. Founding Marketer është on-site në SF, mos e ofro si remote.

Ground rules

- Qëllimi i thirrjes: mos e shit gjithçka në telefon. Bëje prospect-in kurioz dhe lidh takim 20 minuta me Travis.
- Asnjë çmim, asnjë dollar. Vetëm rreshti i lejuar te "Çmimi" lart.

- Mos thuaj "cheap", "offshore" ose "cut costs". Thuaj "your own team, your hours".
- Klientët: thuaj "clients in the US, UK and Switzerland".
- Për të dhënat dhe sigurinë: fol vetëm për MSA-në dhe access controls. Mos premto asgjë tjetër.
- Struktura: Opener → Hook + Stakes → Turn → Proof → Call. Mësoji hapat, mos i lexo fjalë për fjalë.
- Mos thuaj "I saw you're hiring". Thuaj "your full-stack seat has been open for a while".

Çka po punësojnë

Pozita	Ku	Që kur	Mund ta mbushim?	Si ta përdorësh
Full-Stack Engineer (Experienced)	Denver, CO · hybrid 3 ditë	Shtator 2025, mbi 1 vit	Po, si një vend remote për fillim	Hook-u kryesor me Josh dhe Noah
QA reviewer (s'është postuar)	–	–	Po: e kanë blerë më parë përmes Pearl	Përdore me Josh dhe Chaz
Founding Marketer	San Francisco · on-site 5 ditë	Prill 2026	Jo: on-site	Mos e përmend

Rreshta që mund t'i përdorësh në thirrje

- Me të gjithë: "Your product pairs AI-written tests with human review."
- Me Josh-in: "You've already seen remote QA hires work for Ranger." Mos e përmend Pearl-in negativisht.
- Me Noah-n: "You've built companies yourself." Ai ka themeluar Droplet dhe SensorSurf (YC W23).
- Me Chaz-in: "You lead the forward-deployed work with customers."

Founder & CEO · San Francisco (Pacific) · josh@ranger.net

Kush është	Themeluesi dhe CEO. Aprovon çdo punësim dhe shpenzim. Ka folur publikisht për QA hires jashtë SHBA përmes Pearl.
Çka i bie	Gjithçka: produkti, ekipi, buxheti.
Çka duam	20 minuta me Travis për vendin Full-Stack dhe për QA reviewers.
Rëndësia	Thirrja më e rëndësishme. Founder: fol shkurt dhe direkt.

1. OPENER

"Hi Josh, this is Uresë from Outsorcy. I know I'm calling out of the blue. Can I take 30 seconds to tell you why I called, and then you decide if it's worth continuing?"

Prit "yes".

2. HOOK + STAKES

"Your full-stack seat has been open for a while, and your product needs more human reviewers as customers grow. How are you covering that work today?"

NDAL. Lëre me folur. Ky është momenti më i rëndësishëm i thirrjes.

3. TURN: ÇKA BËJMË

"That's exactly why we exist. We help companies build their own team in Kosovo. You interview and pick every person, they work only for Ranger, in your tools and on your hours."

"We hold the employment, HR and payroll, and we stay in it after the hire: raises, keeping good people, and a free swap if someone isn't working out."

4. VALUE + PROOF

"You've already seen remote QA hires work. The difference is that you pick every person and we stay accountable after they start. We're 200+ people with clients in the US, UK and Switzerland, and clients usually start with one or two."

5. CALL: PYETJA + TAKIMI

"What would it mean if the full-stack seat was filled next month, with someone who overlaps your mornings and covers test runs overnight?"

"I'd love to set up 20 minutes with Travis from our team. He can show you real profiles. Would Tuesday or Thursday work better?"

Jep gjithmonë dy opsione konkrete, jo "when are you free?"

Kujdes: Mos fol keq për Pearl. Mos përmend që ekipi u zvogëlua. Nëse pyet për çmim: vetëm "about a third of what a Denver hire costs", pjesën tjetër Travis.

Josh Ip: si me ju përgjigj

Rejection-at më të mundshme nga ky person. Mëso instinktin, jo vetëm fjalët.

1. "We already use Pearl."

"Keep them. We're not a replacement. Use us for the seat that's still open, the full-stack engineer, and compare after 90 days."

2. "Engineers need to be in Denver or SF."

"For some roles, agreed. The review work and back-end work happen in code and CI. Start with one remote seat as a pilot and judge the output."

3. "AI does most of the testing now."

"Your product is AI plus human review. We staff the humans around it. We don't replace the AI."

4. "We're not hiring right now."

"Makes sense. If you could add one person next month, would it be an engineer or a reviewer?"

5. "Our code and customer data are sensitive."

"Completely understandable. Before we share anything we sign an MSA that covers confidentiality and data protection, and they work inside your systems with your access controls." Mos premto asgjë tjetër.

6. "How much?"

"About a third of what a Denver hire costs. Travis covers the details in the 20 minutes. Would Tuesday or Thursday work?" Vetëm ky rresht. Asnjë shifër.

7. "Just send me an email."

"Happy to. So I send something useful, is the bigger gap the full-stack seat or QA review?" Merr info-n, dërgo email-in, propozo datë konkrete.

VOICEMAIL (max 25 sekonda)

Subject: your full-stack seat

Hi Josh, thanks for the time on the phone. As promised: we help companies build their own team in Kosovo. You interview and choose every person, they work only for Ranger on your hours, and we hold the employment, HR and payroll, with a free swap if someone isn't working out.

Would 20 minutes with Travis from our team, on [Tuesday] or [Thursday], work? He can show you real engineer profiles.

Kush është	Engineering në Ranger që nga janari 2025, punon remote nga Boston. Më parë: themeloi Droplet (CEO) dhe SensorSurf (YC W23), Tech Lead në Toyota Research Institute. I vjetër në profesion, jo junior.
Çka i bie	Inxhinieria. Ndoshta ndihmon me punësimin e inxhinierëve, por nuk jemi të sigurt që vendos.
Çka duam	20 minuta me Travis, ose që të na çojë te Josh me emrin e tij.
Rëndësia	Thirrja e dytë. Si ish-founder e kupton koston e një vendi bosh.

1. OPENER

"Hi Noah, this is Uresë from Outsorcy. I know I'm calling out of the blue. Can I take 30 seconds to tell you why I called, and then you decide if it's worth continuing?"

2. HOOK + STAKES

NDAL.

5. CALL: PYETJA + TAKIMI

"Would 20 minutes with Travis from our team be worth it, or is Josh the right person for this?"

Nëse thotë Josh: "Can I tell him you suggested we speak?"

Kujdes: Mos supozo që ai vendos për punësimin. Mos e trajto si junior. Asnjë çmim.

Rejection-at më të mundshme nga ky person. Mëso instinktin, jo vetëm fjalët.

1. "Talk to Josh."

"Will do. Can I tell him you suggested we speak?" Nëse thotë po, thirrja me Josh-in është e ngrohtë.

2. "We only hire senior engineers."

"Agreed, and you'd interview every one. If they're not at your bar, you don't hire them."

3. "Time zones won't work."

"Kosovo is 6 hours ahead of Boston. Our people adjust their day to overlap with yours, and they can cover test runs while you're offline."

4. "Remote engineers don't work out."

"It depends who picks them. You pick every person, and if someone isn't working out, we replace them."

5. "How did you get my number?"

"Fair question. It's from a business listing, and I'm calling about adding people to your team. If you'd rather I use email or LinkedIn, I'll note that." Nëse kërkon të mos e thërrasësh më: *"Of course, I'll note do not call."* Dhe më trego menjëherë.

Çka duam	Një emër: kush vendos për inxhinierë dhe QA reviewers. Ose që të na çojë te Josh.
Rëndësia	Thirrja e tretë. Nuk ka email: vetëm thirrje dhe LinkedIn.

1. "Not my decision."

"Understood. Who would decide? Can I say you pointed me to them?" Emri është fitore.

2. "We're keeping up fine."

"Good to hear. What happens when two big customers start in the same month?"

3. "How did you get my number?"

Rejection-at e përgjithshme

Vlejnë për të gjithë.

1. "Not interested."

"Totally fair, I did call out of nowhere. Just so I know: is it because you're not hiring right now, or because you've already got this covered?" Mos u dorëzo menjëherë. Nëse prapë thotë jo, falënderoje dhe mbylle me respekt.

2. "We're not hiring right now."

"Makes sense. A lot of our clients weren't actively hiring either. They used us when the work was piling up but a local hire didn't make sense. If you could add one person, where would you put them?"

3. "Is this offshore?"

"Our team is in Kosovo, yes. They work your hours, in your tools, and you interview every single one. You're building your own team, not hiring a vendor."

4. "How much?"

"Pricing is handled by Travis on our team, and that's what the 20 minutes is for. Would Tuesday or Thursday work?" Nëse ngul këmbë: vetëm rreshti i lejuar në faqen 1. Asnjë shifër.

5. "What if the person doesn't work out?"

"We replace them right away. Our contracts are six months, then a rolling 60-day notice."

6. "I'm busy, call me later."

"Of course. When's a better time, tomorrow morning or Thursday afternoon?" Gjithmonë kërko orë konkrete. "Later" pa datë = "jo".

7. "Gatekeeper: "What is this regarding?""

"It's about adding people to the team. Could you put me through to [Emri]?" Fol me siguri, shkurt. Mos e shit pitch-in te gatekeeper-i.
